

# COMP SITE IQ

**informa**  
investment solutions

CompSiteIQ is a web-based SaaS (software as a service) solution that *enables investment management firms to create, maintain, and report composites in compliance with the Global Investment Performance Standards® (GIPS®)*. It supports the entire process of composite creation and management through reporting and publication. By working in conjunction with the Informa Investment Solutions performance measurement and accounting systems (Performer and Scorecard), or integrated with other 3<sup>rd</sup> party accounting and performance measurement systems, CompSiteIQ offers sophisticated composite construction and monitoring options that exceed the limited functionality found in spreadsheets and other software packages while lowering technology investment and ongoing costs.

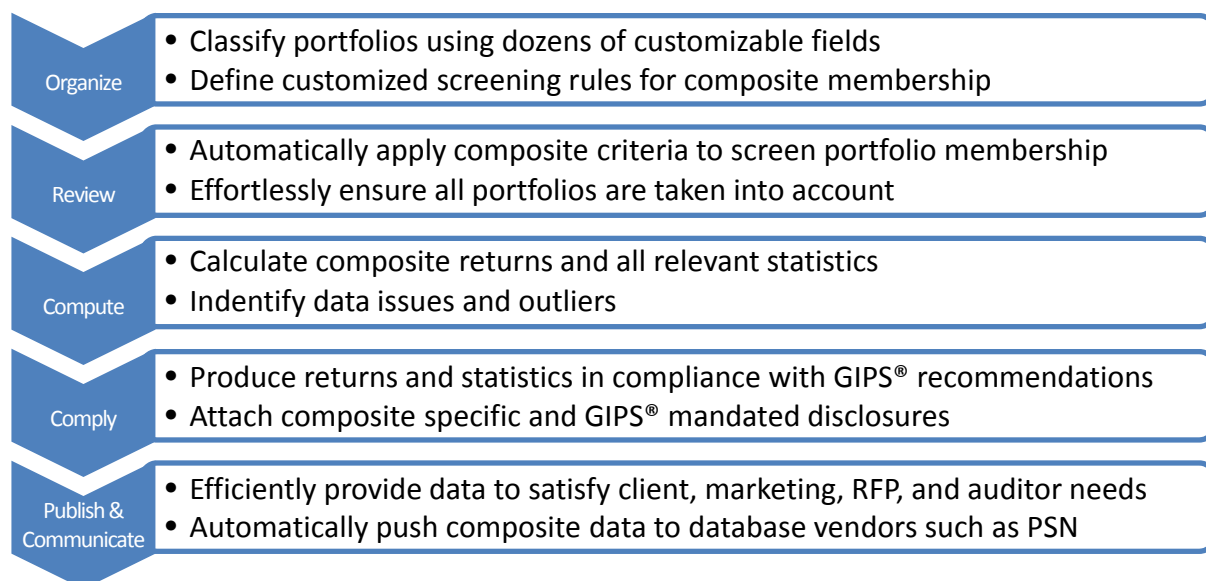

## Features and Benefits

- Automated composite member selection
- Detailed portfolio membership tracking
- Multiple composite return calculations
- Queries for exception resolution
- Predefined customizable disclosure library
- Audit tracking
- Integrated document library
- Export composite returns to PSN

## Automated Workflow Process

Composite creation becomes quick and easy with our automated workflow process.
